## Crows' Nest Pass Highways Association

Delegates Report To Meeting At Coleman

Through some oversight of  
misunderstanding, quite a num-  
ber of local parties who are in-  
terested in the better roads  
movement, including ourselves,  
were not notified regarding a  
meeting of the Crows' Nest  
Highways Association to be  
held at Coleman on Wed-  
nesday afternoon, and as a re-  
sult Blairmore was not very  
well represented at that meet-  
ing.

We understand that the pur-  
pose of the meeting was to hear  
the report of the delegates who  
recently returned from Edmon-  
ton.

The delegates, Mayors Morris-  
son and Sinclair, reported that  
they had interviewed the Hon.  
Charles Stewart, minister of  
public works, at his office on  
Saturday, the 28th, presenting  
the petition for better roads  
from the citizens of this district,  
the resolution passed at the last  
regular meeting of the associa-  
tion, a blue print of the pro-  
posed road along the south side  
of Crows' Nest Lake and a let-  
ter from Mr. Woods, engineer  
at Pincher Creek, in connection  
with the proposed road, for the  
minister's consideration. In  
supporting the petition, the  
delegates pointed out that the  
Crows' Nest Pass is a very im-  
portant part of this province;  
it is the only one of the world's  
most automobile con-  
fields, and that the several pros-  
perous towns with fairly large  
populations were greatly handi-  
capped because of the poor con-  
dition of the roads, particularly  
the interprovincial highway.

Agitation has been on for years  
to have some definite improve-  
ments effected. The present  
road over the Bonanza will  
never give satisfaction, and the  
amount of money spent year  
after year in repairing that  
thoroughfare would go far  
towards building an ideal high-  
way on a perfectly level grade  
along the south shore of the  
lake. The material for road  
making, as stated by Mr.  
Woods, is the very best that  
can be desired and is easily ob-  
tainable, and the cost of con-  
struction for a distance of sev-  
eral miles would not be very  
great. This new road was of  
the utmost importance, not  
only from a local, but from a  
national standpoint, the present  
old road including an  
unnecessary steep grade, which  
is blocked with snow and im-  
passable for the most of the  
year.

Pending the consideration of  
the new road proposition, it  
was asked that the old road be  
immediately placed in "such re-  
pair as to render the travel safe."

In reply to the delegates, Mr.  
Stewart explained that there  
was a pressing need for better  
roads all over the province, and  
that the matter was being care-  
fully considered by his depart-  
ment. In the farming portion  
of the province the local im-  
provement districts co-operated  
with the government on such  
matters and paid a share of the  
cost. The maintenance of roads  
was also receiving attention  
and a scheme of payment so much  
per mile per year to some local  
party was being experimented  
with and was proving satisfactory.  
Mr. Stewart appeared to be  
in sympathy with the build-  
ing of the road along the south  
side of the lake and has given  
his engineer instructions to get

information on the matter as  
soon as possible. He also in-  
formed the delegation that he  
would make a trip through the  
Crows' Nest Pass about the lat-  
ter part of April or as soon as  
the roads were dried up, and  
would be glad to meet the asso-  
ciation, but in the meantime  
would instruct Mr. Jordan to  
make whatever repairs are  
necessary.

From the above it appears  
that the purpose of the Crows'  
Nest Pass Highways Associa-  
tion will have good effect, and  
the association is deserving of  
public sympathy. Already up-  
wards of thirty business men  
and others have joined the as-  
sociation, and we understand  
that quite a number of others  
have signified their intention of  
becoming members and assist-  
ing in the great work under-  
taken by this new organization.  
All who are interested in the  
matter of good roads and in  
the welfare of our district in  
general should connect them-  
selves with the Crows' Nest  
Pass Highways Association and  
attend the meetings which will  
be held from time to time.

## Induction Service at Central Union Church

A large audience turned out last  
night to witness the induction of  
Rev. B. A. M. B. at the Central Union  
Church.

The service was unique, being perhaps  
the first time in the history of the Dominion  
that the induction of a Presbyterian  
minister over a united Presbyterian  
and Baptist congregation should take  
place in a Baptist church.

Owing to the moderator, Rev. Hilla  
Wright, being unable to attend, the  
induction charge was read by Rev. W. M.  
Chalmers, B. A. of Cowley, who also  
delivered the pastoral charge.

Rev. W. McNeill, of North Lethbridge  
Presbyterian church, was the  
prayer of the evening, and delivered  
an appropriate and powerful disci-  
pline.

During the service several selections  
were rendered by the choir under  
the leadership of Mrs. Keith.  
Lancelotti was served at 9 o'clock, fol-  
lowed by a programme of speeches,  
the principal speakers being the Rev. W. T.  
Young, W. H. Hunter, Agent, C. J. Lyon  
and A. S. Tied, the latter occupying the  
chair. Each in turn offered words of  
welcome and encouragement to the  
pastor, and expressed the hope that un-  
precedented success would crown his ef-  
forts in his new field of labor.

The induction of Dr. Craig into the  
pastorate of the Central Union church marks  
a new era, not only in the religious life  
and history of the town of Blairmore,  
but in the Province and Dominion. For  
years the ties of union of the Metho-  
dists, Presbyterians and Congregational-  
ists have been given consideration and has  
been strongly supported throughout the  
West, but the ultimate agreement has  
not been reached because of the differ-  
ences presented by the churches of the  
East, where conditions are somewhat  
different to those in Western Canada.

In Blairmore the general feeling is that  
a united effort can insure success, and  
as a recent meeting of Presbyterians,  
Baptists and Congregationalists was  
openly agreed to merge and secure a strong  
leader. Rev. Mr. Craig is without a  
doubt the man fitted in every manner to  
meet the situation, and expects upon his  
work under the most pleasant circum-  
stances and the result of Blairmore's re-  
spondent will be watched with interest.

## Wedding Bells

Wedding bells rang out loud in  
Gayley on Wednesday of this  
week, when Samuel Lester Tyntin,  
of Cowley, was united in the bonds  
of matrimony to Annie Isabella  
McWilliams, of Lethbridge. The  
marriage took place at the Presbyterian  
church, the bride looked charming  
in a travelling suit of navy blue. After the ceremony,  
which was conducted by Rev. W. M.  
Chalmers, B. A., the happy  
couple left for Lethbridge, where  
they will spend a few days before

## Annual Meeting of International Coal and Coke Company

The annual meeting of stockholders of the International Coal and Coke Company, limited, was held at the company's office in the Old National Bank building, with a large attendance of shareholders and nearly all of the stock represented in person or by proxy. The old officers and directors were re-elected as follows:

President, A. C. Flimmerfelt of Victoria, B.C.  
First Vice-President, H. Davidson of Vancouver, B.C.  
Second Vice-President, A. L. White, Managing Director, W. R. Riddell of Coleman, Alberta.

Secretary, W. G. Graves, Director, in addition to the above, C. R. Houghton of Boston, Mass.

The other officers of the company are: Manager and General Superintendent, D. E. K. S. Whiteside, and Treasurer, John McKean, both of Coleman, Alberta. The twelfth annual report of the directors is signed by President Flimmerfelt and accompanied by a financial statement which shows that the assets \$1,141,114, of which \$882,402 represent plant, railroad, equipment, etc., and \$258,712 for coal lands, rights and development. The current assets total \$68,418. The principal liability is the company's issued capital consisting of 3,000,000 shares, par value \$1. The profit and loss account shows a loss on the operations during 1915 of \$429,000, reducing the balance at start of that account to \$75,260. The surplus is \$428,380, after transferring \$25,000 to reserves. The report of the directors follows:

From the figures above you will notice a loss of \$429,000 in the year's operations. Although the balance is on the wrong side, considering the enormous scale of operations under which the mine was operated and taking into special account the additional development and the same year the result must be considered satisfactory.

The season's operations were begun without any railway contract for coal. The primary reason was the lack of special requirements with which we were, unfortunately, unable to comply. In the meantime, the general development of the mine was continued, and we are now able to meet the railway requirements. Nevertheless, all decisions under which we labored, business of sufficient magnitude was obtained which enabled the management to develop 635,538 tons of additional coal over what was mined and at a cost of approximately \$100,000, besides supplying the necessary equipment and maintaining the efficiency of the plant.

As it was impossible to forecast the duration of the trade depression our directors received the authority of the shareholders to loan the property in order that the mine might be kept in condition and in operation, with sufficient development ahead to be in a position to take advantage of any revival in trade, and they are now pleased to be able to report that sufficient orders are in hand and in sight to operate at a profit, and that for the future the mine will not be necessary to use the power given for the loan of bonds.

The development of the second level is now sufficiently advanced to admit of producing about 700 tons per day. The cost of the plant, etc., to develop this level was approximately \$150,000, all of which has been paid out of the earnings of the mine, and had it not been for the special conditions which rendered this expenditure necessary this sum would have been available for dividends.

As the policy of the company has always been to keep the development well in advance of the requirements, we have contemplated the opening of the third level during the year 1916. Your mine and plant are in good condition, we operated 131 days during the year and employed on an average 181 men.

"Caes," said Pat, "how do you tell the age of a cow?"  
"By the teeth," said the other.  
"By the teeth?" exclaimed Pat, "the teeth?"  
"No," said the other, "the teeth."

A gang of spotters have been busy around this section of The Pass for the past two weeks, and proceedings instituted this week show that they were not without success in inducing a few innocent individuals to stray from their ways as to lay themselves open for conviction under the license act, and as a result a considerable sum for the provincial treasury has been realized from a few poor and innocent individuals. Why the government will persist in allowing this practice to be continued to one can say, but it is a fact that those undesirable who are willing to undertake the mean practice of a spotter or a spy are absolutely no use to a community or a country.

## OF LOCAL AND GENERAL INTEREST

H. Ostlund, solicitor, of Lethbridge, was in town on Tuesday.

F. W. Lindsay and little Jim were in town on Tuesday from Pincher Creek, on a brief visit.

"Nothing definite has yet been ascertained concerning the sinking of the steamer Talisman," said Minister of Marine Ramboisnet to the Associated Press Thursday, but nothing will be left undone by our department, to establish with certainty the cause of the disaster.

The idea has been expressed of celebrating Arbor Day in Blairmore by allowing every man in khaki to plant a tree along the south side of Victoria Street. Thus, doing, the trees would be a lasting memento of the number of men who enlisted for service as well as having the tendency of beautifying the town.

J. A. Osborne was down from Nanaimo on Monday of this week.

In the provincial house on Wednesday, Hon. Campbell, member for Rocky Mountain, made a plea for expenditure and highly praised nine rescue stations established by the government. He also asked that Alberta coal be advertised in other provinces.

Reference is made in the London press to a notice which has been one of the most discussed topics in London clubs for several weeks, upon an expected attempt of 156 men to land an ex-editorial force on English soil with the purpose of effecting the occupation of London.

An urgent request, addressed by the Greek government to the currency powers for a loan of 20,000,000 (\$20,000,000) is being considered by the allied council in Paris. The loan may be granted, subject to Greece's acceptance of certain conditions which the allied council is now engaged in drafting.

A local girl left his office during the "dry" hours of Saturday afternoon, and pinned up the following notice on his door: "Back in ten minutes." One of the school boys, observing the notice added the word "week," so that the notice read "Back in ten minutes," and he was right, too.

The number of widows of British soldiers who have thus far been referred to the army council is 41,500, according to William H. Fisher, parliamentary secretary of the local government board, in a speech to the house of commons on the war pensions bill. The widows of sailors, Mr. Fisher said, aggregated about 8,000.

"Great Britain and her allies will have a new peril after the present conflict in an industrial war, for which Germany has long been preparing by the creation of a new and formidable class of highly skilled workmen." This statement was made by Viscount Haldane, the former secretary of state for war, in an address at the University of London.

All is ready in Germany for the great combined air and sea raid on England. In the North Sea there has been great activity. The feeling in London is that final touches have been put to the German fleet of zeppelins, cruisers, destroyers and submarines. At any moment news is looked for that "the Germans are out," and that the long expected attempt to bring about "der tag" has been launched.

Last week's Coleman Bulletin struck a job, so to say, and turned out an order for \$5,000 milk tickets for the Crystal Dairy at Blairmore. We wish first to inform our friend of the Bulletin that the Crystal Dairy is without the limits of the town of Blairmore, and further that his IMMENSE order is but a patch on ours just completed for 400,000 milk tickets, and this in addition to other jobs handled by us during the past ten days aggregating 78,000 runs. We don't blame the poor Bulletin man for having elated when given the chance to get the price of a meal ticket.

A bill authorizing the appointment of a fire commissioner, whose duties it will be to travel through the province, condemning shacks that are unsafe and investigating all fires that occur, with a view to instituting criminal proceedings if incendiarism is suspected on good grounds, has been introduced in the legislature. The bill's aim is to more actively get after fire-trap buildings, especially in small towns. Fire underwriters of the province are in favor of the measure and its introduction is largely the result of visits of certain fire insurance and financial delegations which were in Edmonton just before the beginning of the session.

A big creditors sale is being put on at Messrs. Haddad Bros' store, and a large amount of money must be raised in a short time. It is reasonable to expect that genuine bargains are in store for patron. The stock is in charge of the Canadian Credit Men's Trust Company, and their agent, Mr. Hanna, will see that the buying public gets the benefit of this great money raising and money saving event. The sale starts on Saturday, April 1st and will continue until the amount of money required is raised. Don't miss this opportunity.

A western newspaper director is looking for a boy helper in his printing office, and is offering him "ten dollars a month and a board." At that rate the kid might have lumbered enough inside of two years to build himself a cabin, which is the height of the ambition of every poor boy.

C. H. Lay, of Calgary, formerly with Truist and Guarantee Company was committed for trial recently, on several different charges of theft from the Imperial Trust Co.

It may take experience, but after a woman interesting, but she has acquired it almost any woman would gladly exchange all her experience for a baby stare and a dimple.

Liquid fire has been the means by which the Germans gained the portions of trenches mentioned in recent official communications, says the *Journal des Debats* and the military committee of the chamber of deputies is inquiring into methods for the protection of the French troops against such attacks and the use of similar weapons in reprisal.

Anglican church service on Sunday next, April 2nd, will be at 7.30 p.m. The preacher will be Rev. H. Clay. Subject of address: "Christ's talk with the woman at the well." There will be no morning service on the above date, but on the following Sunday, at 11 a. m., as usual. A mission service with intercession is held each Tuesday evening at 7.30.

Officers of the 102nd had a charge laid against one of the government "spotters" at Coleman this week, which resulted in the bars of the prisoner's cage standing between the spotter and the world at large. After the matter had been taken up with the authorities, it was found that the arrest was not justified, and the accused was discharged, and instead a charge was laid for selling liquor without a license.

Thos. Ede, barrister, of this town, who in the early days practiced in Calgary, succeeded in recovering an old friend of twenty-seven years standing, after an absence of that time, when this week the old client appeared on the scene in the person of Frank Marriage, and business of many years ago was finally wound up. We understand that some thirty years ago a certain sum of money was placed in a branch of the Bank of Montreal at Calgary, to the credit of Mr. Ede and his client, and that has accumulated and is now in the thousands and will net each party a nice little nest egg in a time when both parties are past the war-age limit. Who says marriage is a failure?
